

Leasing and Development Opportunities: Molly Creek Access Area on Lake Wateree

Duke Energy is seeking qualified parties interested in obtaining a commercial lease to develop and manage the Molly Creek Access Area on Lake Wateree in Fairfield County, S.C.

Molly Creek Property Outline

Features:

Molly Creek Access Area is located at 7604 Island Road, Ridgeway, S.C. 29130 with the following facilities under construction:

- 97.5 acres
- Swim beach
- 2 single-lane boating ramps
- Courtesy dock
- Picnic amenities
- 2 fishing structures
- Vault toilets
- Trails
- Parking

Conditions for lease:

Per Duke Energy's 2006 Comprehensive Relicensing Agreement (CRA):

- Lessee will be responsible for comprehensive site operations and management for the term of the Catawba-Wateree Federal Energy Regulatory Commission (FERC) License No. 2232 (expires on Oct. 31, 2055).
- Lessee will be responsible for additional site development, including permitting approvals for specific facilities as stipulated in the CRA.
- Any additional facilities proposed by the lessee must be reviewed and approved by Duke Energy, FERC and other stakeholders prior to construction and installation.
- All upland and shoreline development within the access area must be consistent with the Catawba-Wateree Recreation Management Plan and conform to Shoreline Management Guidelines.

All Duke Energy-owned access areas are located within the FERC Project Boundary and subject to federal rules and regulations defined in the Catawba-Wateree Hydroelectric Project FERC License.

Please submit questions and information requests to RETransactions@duke-energy.com.
