

**We all have  
a carbon  
footprint.**

**GreenEdge<sup>SM</sup> is a new  
way to balance yours.**

Piedmont  
Natural Gas

# An easy and affordable way to address the carbon footprint from your natural gas use.

For as little as \$3 per month, you can help create a more sustainable energy future. When you enroll in GreenEdge, this monthly fee subscribes you to “blocks,” which are a representation of renewable natural gas (RNG) environmental attributes and carbon offsets. There are no contracts or changes to your home, and the additional cost is conveniently added to your natural gas bill.
