

Switch to a **tankless water heater** for comfort and reliability at home.

Tankless natural gas water heaters:

- Cost significantly less to operate than electric and propane models
- Free up floor space and can be placed anywhere in the home
- Save money by only heating water when it's needed
- Emit up to half the CO₂ greenhouse gases compared to electric models

Choose any convenient location in your home to install a tankless water heater for on-demand comfort whenever and wherever it's needed.

Piedmont installs and services most tank and tankless water heaters, and is proud to offer Rinnai tankless water heaters.
